239.6. Matters Arising

a). Traffic Matters

Parents delivering and collecting children to/from school were observing better discipline, (eg going around the circuit to Bonnyton road rather than turning in the village) but congestion was still a major problem added to by the traffic to the Braeside development. No immediate solution to this could be suggested. Great care is needed when walking to/from parked cars and the school.

b). Core Paths

There were no new developments in our area. John informed the meeting that the main paths now open in Auchterhouse were shown on the Angus Council plan.

c). Drilling for Sandstone

There has been no further information from Dalgleish Associates, who have carried out exploratory drillings at Dronley farm.

b). The phone kiosk in the village can now only be used with a card (charge/credit/prepaid) (no coins). It was agreed to contact BT to express our concern that people without a card would not be able to use the phone in an emergency and people without a BT account would not be able to get a BT charge card. Also, there is no local shop selling prepaid cards.

Various extensions/summer houses etc. at other properties are in the pipeline. An application for houses at Auchterhouse Park made in 2006 was refused this year.

Topics of Discussion and Action through the year: -

Traffic Matters.. The B954, at Cotton of Auchterhouse, was finally improved with anti-skid surfacing with a resulting drop in accidents.

New legislation, in 2006, allows speed restrictions in rural areas to be imposed more easily. The Council is currently carrying out a review of B and C roads with this in mind. Inspector Tasker, Community Policing, has attended a council meeting and been fully briefed on the situation on all roads in Auchterhouse.

Tactran The strategy document from the Tayside and Central Scotland Transport Partnership was picked over and our views expressed. Linda gave a full report on this in March.

Footpath to the Avenue Discussion on developing the pavement/footpath from the Avenue to the Road-end continues. A work party is studying the needs and possible solution.

Core Paths Paths to link the old railtrack and Dronley wood have been made on both the southside of the wood and at the car park. Gates have been installed. A style has been placed over the wall between Auchterhouse hill and Scotston hill.

Recycling Centre The centre has been operating successfully (including paper bin) from its temporary home on the playing field.

Auchterhouse web site Our website www.auchterhouse.com went live in December 2006 and has since received much praise. Our thanks go to Duncan Kennedy for all the work he has done on this and for continuing to update it.

Argus Bob Bruce has continued his sterling work in editing and publishing the monthly news sheet. Many thanks Bob.

Notice Boards All 4 notice boards are being well used. However notices are often left up passed the intended date (eg event date). Timely removal is required. The notice board at the road end was vandalised (repaired by Jim Foote) and the main board is in need of attention.
