

Auchterhouse Hall News September 2012

The recent Hall Committee meeting was well attended by the representatives of most of the organisations using the Hall.

It was noted with pleasure, the completion of the patio area and the lighting beside the steps. All that remains is the painting of the seats and some planting in the corner nearest the road.

The prop shed is in need of a paint to preserve the woodwork.

The outside light on the North East corner of the Hall is still not working due to a wiring fault which is proving difficult to trace. Another attempt will be made to try to get it resolved.

Improving the heating of the hall is also proving difficult. Better insulation is the first task with further investigation into the possibility of insulating under the floor.

The quest for an effective audio system is continuing.

The 200 Club continues to provide a good income stream for the Hall as well as rewarding members who hold numbers.

New or good second-hand chairs are to be purchased to replace the damaged ones.

Concern was expressed at inconsiderate drivers who park across driveways when attending Hall and village activities. A notice is to be displayed indicating that number plate details will be passed to the police if this continues to occur.

Thanks to all who work to maintain this vital village asset.

Shiona Baird (Chair)
